Ladders (Step, Extension)

Solar or Wind power equipment, Bicycle powered Generator

CW Ops. might want to bring thier own keys & headsets.

We hope to make this our best year ever. But we need your help to accomplish this task. Even if you can only spend a few hours out there, it would really help out. We need plenty of help setting up operations on saturday morning and disassembling it on sunday morning. But most of all, we need ops. If you can't come during the day, we plan to operate thru the night. Or join the rest of us and make a weekend of it. The weather is nice enough to sleep in your car or pitch a tent.

Novices, this is an excellent chance to improve your code proficiency and pick up tips on operating from the other ops there. Gen.,Adv., Extra class we need you all. For those of you who never attended before, just ask one of those who have. And they'll tell you what a great experience it is. Hope to see you all there on June 25 & 26. If you have any questions, please feel free to contact me at home. My phone number is 541-3725.
